EDUCATION

- **MCT Rajiv Gandhi Institute of Technology**
MCT Rajiv Gandhi Institute of Technology
CGPA: 7.4

Mumbai, India
Graduated: May 2025

PROJECTS

- **Wildlife Analysis & Conservation System – IEEE Published Research** | *Python, TensorFlow, AI/ML* May-2025
 - Built an AI-driven platform for wildlife conservation using predictive models and live tracking.
 - Used **Python and TensorFlow** to forecast animal populations and detect threats.
 - Integrated **map and sensor data** to enable habitat mapping and real-time monitoring.
 - Developed a dashboard displaying poaching risks, population analytics, and conservation plans.
 - Presented the project at an IEEE conference, sharing our approach and findings with the global research community.
- **3D Zombie Survival Game – Unity-Based Game Development Project** | *Unity, C#* Apr-2024
 - Created a 3D Zombie survival game in **Unity Engine** out of strong personal interest in gaming.
 - Designed and coded smooth player controls, combat mechanics, Inventory system, and Zombie movements.
 - Built a smart zombie spawning system in **C#** that uses player location and Distance that create unpredictable zombie encounters.
 - Designed and built multiple levels and environment to enhance user interaction and a consistent challenge.
 - Used this project to explore game development fundamentals and passion for gaming into development skills.
- **E-Bookstore – Online Reading & E-Commerce Platform** | *HTML, CSS, JavaScript, PHP, MySQL* Jul-2023
 - Developed a full-stack web application allowing users to browse, purchase, and read eBooks online.
 - Built a responsive frontend using **HTML, CSS, and JavaScript**, with backend in **PHP**.
 - Integrated **MySQL** for managing user authentication, book inventory, orders, and transactions.
 - Implemented features including secure login, book search, cart management, and online payment workflow.
 - Ensured secure transactions and data integrity using **prepared SQL statements** and **TCL transaction logic**.

TECHNICAL SKILLS

- **Languages:** Java, Python, C, C++, SQL, HTML, CSS, JavaScript
- **Framework/Libraries:** OpenCV, NumPy, Matplotlib, Pandas, MySQL Connector
- **Tools/Technologies:** MongoDB, Firebase, Figma, VS code, GitHub, MySQL Workspace
- **Concepts:** OOP, Data Structures, Algorithms, DBMS, Operating Systems

Soft Skills

- Strong problem-solving mindset, especially when building and improving projects.
- Clear communication skills, able to explain ideas and technical work.
- Creative and persistent, willing to experiment, debugs, and improve until things work.

EXTRA-CURRICULAR ACTIVITIES

- **Sports:** Participated in college-level volleyball activities, building teamwork, coordination, and collaborative skills through sports activities. Also engaged in casual football games, carroms, chess and badminton.
